OUR STORY

ROASTING SINCE

1972

Every cup of coffee is an experience. Is there another beverage that conjures up warm, intimate feelings like coffee? Visiting with a friend, waking up, cramming for an exam, taking in nature with your favorite mug. Coffee is attached to memories.

TEAM

Allan Stuart

Julie Trindade

Founded by Allan Stuart, our roast master, Allann Brothers Coffee has pioneered the specialty coffee industry since 1972. We make every cup of coffee a memorable experience by sourcing only the finest high altitude grown Arabica beans from around the world. We developed Direct Trade relationships with farmers and cooperatives in several countries of origin. Our selection includes single origin, blends, Fair Trade, Organics and Rainforest Alliance coffees.

Each green coffee is hand sorted, filtered for impurities, and sun dried as nature intended. It is roasted to order daily in a 1939 Jabez Burns Roaster. Meticulous attention is given to each micro batch to ensure uniformity and consistency. Upon completion of the roasting process, each batch is stirred and air cooled, allowing each bean to return to room temperature at an even rate, preventing cracking. All of our coffees are produced and shipped fresh from our roasting plant in Albany, Oregon.

In addition to our coffee, we offer only the finest teas the world has to offer. The same rigorous pursuit of excellence is applied to our line of teas, where each varietal is tested for quality and consistency. We carry an assortment of withered, rolled, fired and oxidized processed teas in all four types; Green, Black, White and Oolong. Our teas are produced and shipped directly from the same plant as our coffee, by the same meticulous quality assurance team.

We are proud to offer some of the best coffee and tea specific concentrates in the industry. Java Trio combines coffee, vanilla and chocolate for a decadent beverage experience. Connoisseurs can add spice to their lives with our Maya Chai and Maya Chai Devi. Maya concentrates boast the only 11:1 mix ratio, higher than any other chai concentrate on the market. Our Shotz espresso concentrate is the best product on the market for making iced drinks without the need to pull a hot shot; reducing prep and labor in your drink production time.
